Flatrate Business ADSL now available

Now, for the first time, you can get a 256k business ADSL connection at a flatrate fee - so you don't need to worry about receiving a large bill at the end of the month for exceeding your cap.

256k Quickfire ADSL business plans come with up to 10GB data per month (speed will be throttled above the cap) - on the previous fullspeed business Jetstream plan, this much data would have cost you around \$1000 per month! You'll now pay around \$70 per month for 10GB data on your 256k Quickfire plan, with no excess usage charges.

Business broadband has never been so affordable!

You'll also pay for your phonenumber & ADSL internet on one Quicksilver invoice, with no additional Telecom fees to pay - that's right, no additional Telecom fees to pay, and you'll have access to Quicksilver's cheaper toll call rates.

With broadband ADSL, you can talk on the phone and use the internet at the same time, you'll also save on the cost of a second phonenumber, and there's no need to dialup, saving you on local call charges too.

Many of our customers have told us they are keen to pay one provider for broadband internet, phonenumber and toll calls, so we're very excited to be able to offer this.
