

## New, Faster Broadband Plans Are Here!

That's right! From April 3rd Quicksilver is launching a whole new range of ADSL Broadband plans for home and business, with new faster speeds available. Our plans now include 3.5 Mb maximum download speed (that's up to 90 times faster than a dial-up connection), and either 128k or 512k upload speed.

These new plans will be available for home or business lines, so you can choose the plan that suits your needs. These new plans are not only great for home users, but our business customers can now order plans with up to 100 GB included, for a measly \$200 per month. Small businesses are no longer forced into expensive business plans -- all of these new plans may be ordered by home or business users.

We will be contacting all our current broadband customers by email, to keep

you updated on what will happen to your current plan, so keep an eye on your inbox!

All of our new plans will still have free nationwide traffic included in the plan, and a generous international data download limit.

If you exceed your international data download limit, your connection speed will alter back to 64k. If you don't want your connection to slow down, additional blocks of International data can be purchased at \$10 for 5 GB, or \$20 for 10 GB.

Plan name	Maximum Speed (download/upload)	International Data included in plan	Monthly cost
Lift Off	2 Mb/128k	1 GB	\$39.95
Orbit 5	3.5 Mb/128k	5 GB	\$49.95
Orbit 10	3.5 Mb/128k	10 GB	\$59.95
Orbit 30	3.5 Mb/128k	30 GB	\$69.95
Orbit Pro 10	3.5 Mb/512k	10 GB	\$84.95
Orbit Pro 20	3.5 Mb/512k	20 GB	\$99.95
Orbit Pro 50	3.5 Mb/512k	50 GB	\$149.95
Orbit Pro 100	3.5 Mb/512k	100 GB	\$199.95

## Does your business spend \$300 per month or more on toll calls?

If your business currently spends more than \$300 per month on toll calls with another provider, Quicksilver could save you money with our Premium Business 054 plan. Many businesses are now taking advantage of this service to save money on their monthly bill. With the Premium Business 054 plan there are two ways your business could save money. Either your staff can dial 054 code number when they want to put a call through the 054 system, or you can arrange for your PABX company to preprogram your PABX to insert the 054 code before every toll call number, giving you automatic savings on nationwide,

international, and land to mobile calls. Preprogramming the PABX is generally the preferred option for most of our Premium Business 054 customers.

### Some of our Premium Business 054 rates:

Nationwide NZ	6.2c
Land to NZ Mobile	32c
UK	7.1c
USA	7.1c
Australia	7.1c

These rates exclude GST.

If you'd like to talk to us about how the Premium Business 054 plan could help your business save money on toll calls, please contact Andrew Macintosh on **09 916 0278**.

### CONTACT DETAILS

**Postal:** PO Box 99856,

## Earn income with Quicksilver's Reseller Program

If you run your own business, Quicksilver's reseller program could generate an attractive income for you & your business, **earning a percentage of your customers' spend every month**, for as long as they are a customer with us.

Current Quicksilver resellers include companies such as Computer Retailers, Language Schools, Accounting Firms &

Web Designers.

### Is your Business suitable?

- You are a registered business in NZ, established for 12 months or more
- Your customer base/Target Market is suitable for selling internet or tolls services to
- You believe you could potentially sign up at least 5 or more new customers per month

- You are able to provide excellent service to new customers

For those who don't meet the criteria above, you could still earn a \$10 credit for each customer referred to Quicksilver.

For more information on our reseller program, and an application form, contact Andrew Mackintosh on [amackintosh@quicksilver.co.nz](mailto:amackintosh@quicksilver.co.nz)

## Business Watch

### **Quickfire Wireless**

Quickfire Wireless delivers high-speed internet with extremely low latency, and affordable plans.

Quickfire Wireless is suitable for small businesses in our Wireless coverage areas who need high speed for both upload and download, low latency for voice or other applications, and a low-cost monthly fee.

#### KEY BENEFITS

- \* Low cost
- \* High speeds
- \* High reliability & low latency

- \* Synchronous speeds available (512k/512k or 1M/1M)
- \* No reliance on telephone network
- \* Free helpdesk
- \* Free Spam & Virus email protection

Quickfire Wireless is available in limited coverage areas. The network covers the area from Pokeno in the South, Hamilton, Pukekohe, the Auckland City area, up to Kumeu and Orewa in the North, with the Rodney cape and Snells Beach forming the furthest Northern coverage

area.

The biggest advantage of Quickfire Wireless is that synchronous speeds are available -- the connection has the same speed up and down stream. Synchronous plans are available at 512k or 1 Mb. Quickfire Wireless is completely independent of the Telecom network, and does not require a telephone line at all.

For more information see [www.quicksilver.co.nz/products/wireless.php](http://www.quicksilver.co.nz/products/wireless.php)
